Risk Definitions	
Low	Controls are adequate, no further action required, but ensure controls are monitored and any changes reassessed.
Medium	Consideration should be given as to whether the risks can be reduced using the hierarchy of control measures. Risk reduction measures should be implemented within a defined time periods. Arrangements should be made to ensure that the controls are maintained and monitored for adequacy.
High	Substantial improvements should be made to reduce the level to an acceptable level. Risk reduction measures should be implemented urgently with a defined period. Consider suspending or restricting the activity, or applying interim risks controls. Activities in this category must have a written method statement/safe system of work and arrangements must be made to ensure that the controls are maintained and monitored for adequacy.
