

This is an overview of when assessments are happening across the school - students will be told by their class teacher when the actual assessments will take place as different classes are doing assessments at different times, depending on where they are at in terms of their learning (some subjects / classes will have been slightly more disrupted than others due to Covid). The main purpose of these assessments is to inform teachers of what students know well and what they need to know better. Assessments do not result in a class / set change. The whole learning journey of a student, of which assessments are a small part, is used to inform teachers about class / set changes.
